We do not recommend this service for business use. Lavalink will not be liable for loss/damages. ADSL faults reported by you to your phone line carrier – in particular Telstra, are billed to you at \$55 per incident where a service technician determines that the fault lies with the customer's equipment/configuration. Access to ADSL services is not guaranteed - talk to us about this 1. Total data transfers metered. 2. Includes a nominated data cap, the service may slow to 56k for the remainder of the calendar month. Full service will be restored the next billing month. For accounting purposes 1 MB = 1,000,000 bytes. Connection speeds are shown in downstream/upstream format. The actual speeds may vary due to many factors including the plan selected, the capacity and popularity of websites, computer configuration and overall internet traffic.</p> <p>Billing: Monthly accounts are billed to credit card only – contact us for alternate billing. In the event that a direct debit is rejected the ADSL service will be immediately suspended – a reconnection fee of \$55 will apply.
